PLANETA ATEX LEVER HOISTS

Planeta ATEX lever hoists are designed especially for explosion-hazard areas, offering a safe and efficient lifting solution for demanding industrial environments. The all-steel, specially coated construction meets the requirements of the ATEX Directive, and non-sparking EX chains ensure

safe use. The hoists are available in three versions: BASIC (Zone 2), MEDIUM (Zone 1) and HIGH (Zone 1), the last of which includes NIROSTA chains and a trolley with bronze wheels. These features make Planeta ATEX lever hoists an ideal choice for the chemical industry, the oil and gas sector and other explosion-hazard sites.

PRODUCT DESCRIPTION

PLS Premium EX is Planeta's explosion-proof lever hoist for explosion-hazard areas. Made entirely of steel, the hoist is coated and designed with the restrictions of EX areas in mind.

Where standard PLS lever hoists excel in challenging conditions such as damp spaces, water treatment plants and harsh environments that call for long life and durability, the PLS-EX also handles the more demanding explosion-hazard areas.

- Non-sparking EX chains
- ATEX-approved for explosion-hazard areas

Available in three versions:

BASIC, EX II 3 G IIB c T3 (Zone 2)

- fast-moving parts treated with a special coating
- galvanised chains

MEDIUM, EX II 2 G IIB c T3 (Zone 1)

- fast-moving parts treated with a special coating
- hooks treated with a special coating
- galvanised chains

HIGH, EX II 2 G IIC c T3 (Zone 1)

- fast-moving parts treated with a special coating
- hooks treated with a special coating
- “NIROSTA” chains
- bronze trolley wheels
