GIOVENZANA PENDANT CONTROLS

Giovenzana pendant controls are high-quality, safe control devices for industrial needs. They are available both fully equipped and empty, so they can be customised to the customer's requirements. The range includes ergonomic pendant controls such as the HP07 model with

seven buttons and an IP65 rating. Giovenzana products are known for their reliability and meet international safety standards.

PRODUCT DESCRIPTION

Giovenzana International B.V. offers a wide range of high-quality pendant control stations designed for controlling industrial machinery and equipment. With more than 65 years of experience, the company develops products that meet industry's strict safety and durability requirements.

The product range includes:

- **Pendant controls**: Available in configurations of 2–14 buttons, in single-row or double-row models. Examples include **PLN05** (5 buttons), **PLN07** (7 buttons) and **PLN12** (12 buttons).
- **Ergonomic models**: Designed with ease of use in mind, such as **HP05** (5 buttons) and **HP08** (8 buttons).

Key features:

- **High protection class**: IP65 rating protects against dust and water, allowing use in demanding conditions.
- **Safety**: Double insulation and mechanically interlocked bidirectional functions prevent incorrect commands.
- **Durability**: Impact- and heat-resistant construction ensures long service life.
- **Customisation**: Available as ready-made units or as customisable sets to suit the customer's needs.

Applications:

- Industrial cranes and overhead cranes
- Construction site cranes
- Automation systems
- Waste management equipment

Giovenzana pendant control stations combine ergonomics, safety and durability, offering a reliable solution for industrial control needs.
