PLANETA MANUAL TROLLEYS

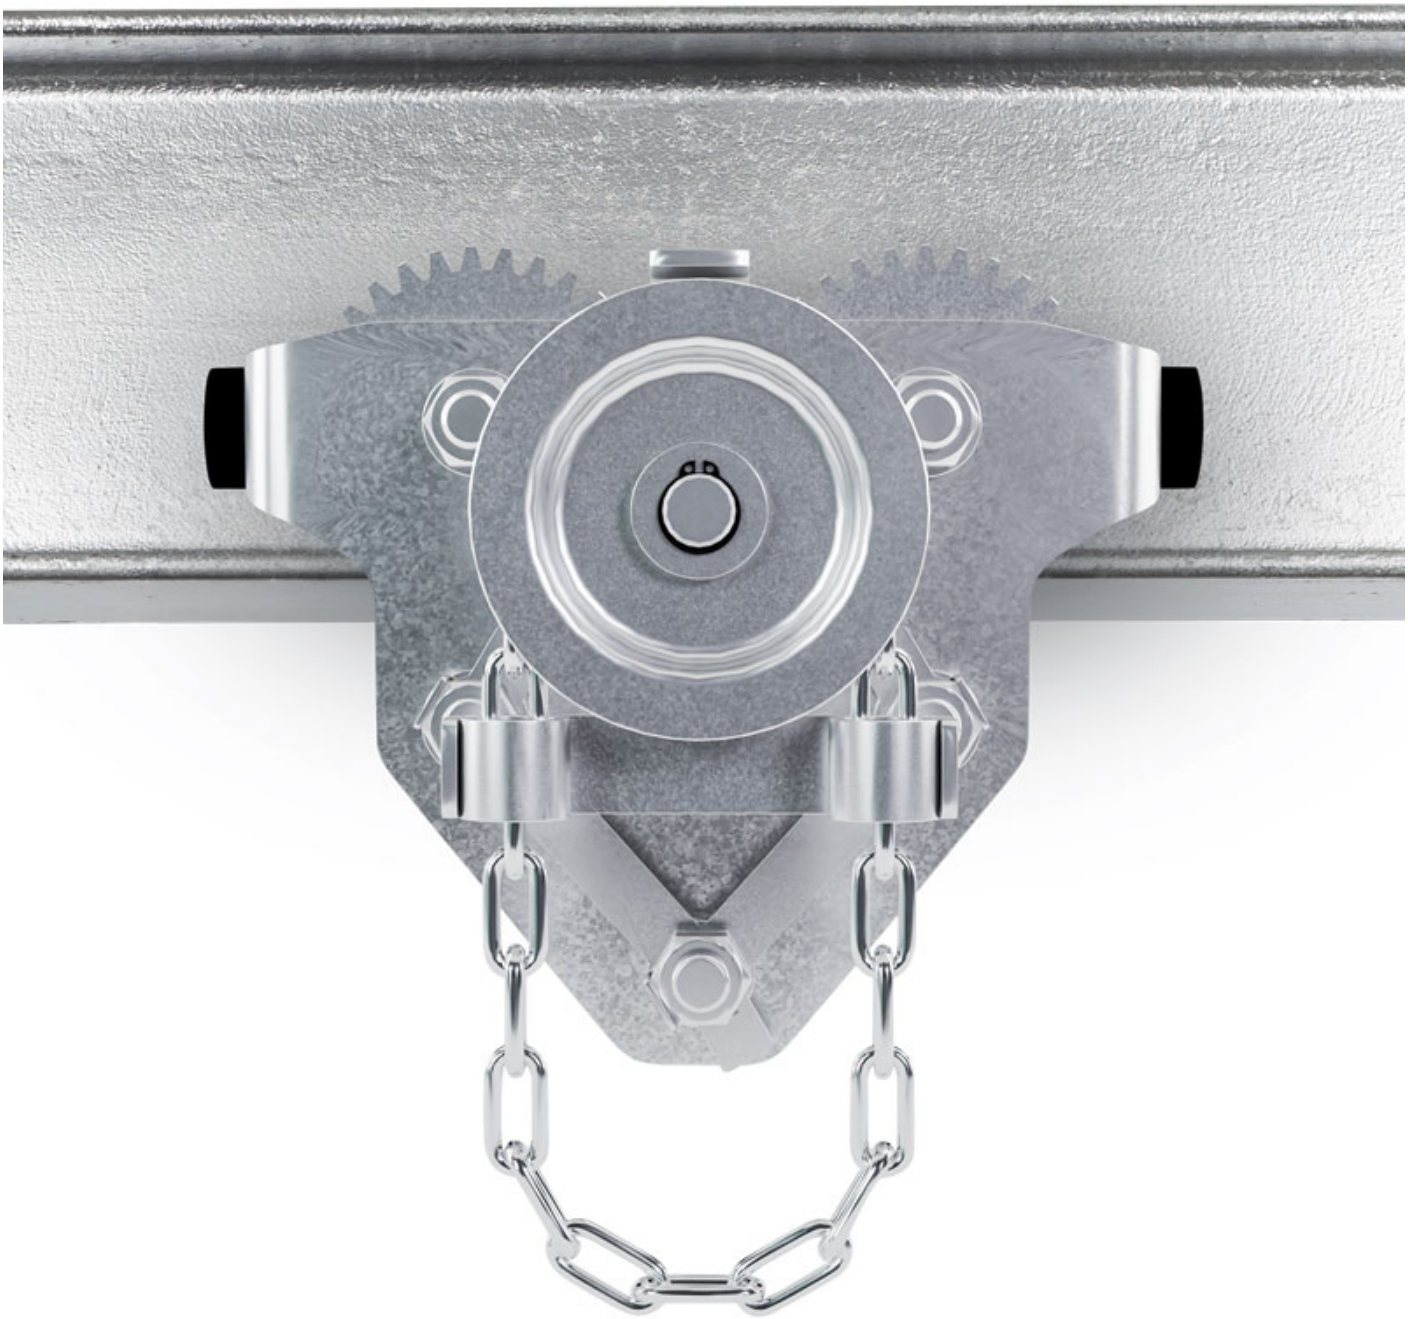

Planeta manual trolleys are designed to make horizontal movement of loads along I- and H-beams easier, without electricity. They are well suited to industrial plants, warehouses, construction sites and other places that need simple and efficient load handling. The trolleys

can be adjusted to different beam widths, and their compact, lightweight design allows easy installation and use even in tight spaces. Made from high-quality materials, Planeta manual trolleys offer a reliable, long-lasting solution for manual load handling.

PRODUCT DESCRIPTION

Planeta manual trolleys – reliable load handling without electricity
Planeta manual trolleys are designed to make horizontal movement of loads along lifting beams easier, without electricity. They are ideal for industry, warehouses, construction sites and other places that need simple and efficient load handling.

Key features

- Lifting capacity: various models covering a wide capacity range.
- Adjustable width: fits a range of I- and H-beam widths.
- Compact and lightweight design: easy to install and use even in tight spaces.
- High-quality materials: made from durable, reliable components for long service life.
- Easy maintenance: designed for low upkeep and quick servicing.

Applications

- Industrial plants
- Warehouses
- Construction sites
- Repair shops
- Other sites that need manual load handling

Planeta offers a wide range of manual trolleys for different needs.
