TEKNOWINCH AND PLANETA WINCHES

Tuotetekno Oy has manufactured Teknowinch winches since 1992. Our range covers electric, pneumatic and hydraulic winches for different pulling and lifting needs – from small installation jobs to demanding industrial sites.

Alongside our own production, we represent and supply high-quality German Planeta winches, which complement our range for different uses and load requirements.

PRODUCT DESCRIPTION

All Teknowinch and Planeta winches are CE-marked and meet current occupational safety and regulatory requirements.

Thanks to standard components and our flexible production line, we can deliver winches at short notice, in as little as 1–2 weeks from order, and our spare parts and service ensure long-term reliability.

We also supply all accessories for Teknowinch and Planeta winches: wire ropes, rope clamps, deflection sheaves and hooks.

TEKNOWINCH KOMPAKT SERIES 125 – 1200 kg

- Direct and low-voltage control models
- Operating voltage 230 V or 400 V / 50 Hz
- For loads up to 1200 kg
- Wire rope max 50 m
- Models available with different speeds

TEKNOWINCH E SERIES 250- 3000 kg

- Model for pulling
- Low-voltage control as standard
- Operating voltage 400 V / 50 Hz
- Models available with different speeds
- Various equipment and control options
- Also for long ropes

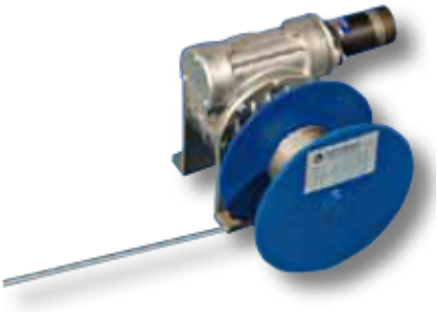

TEKNOWINCH CAPSTAN SERIES 500- 5000 kg

- For ships, harbour quays and rail yards
- The capstan drum can be vertical or horizontal
- Control by push button or foot switch
- Dimensioned to the customer's needs

TEKNOWINCH H SERIES HYDRAULIC WINCHES 250 – 800 kg

- Lifting capacity 250 – 800 kg
- Fully self-locking gearbox
- Rope lengths and diameters case by case
- Control equipment separately

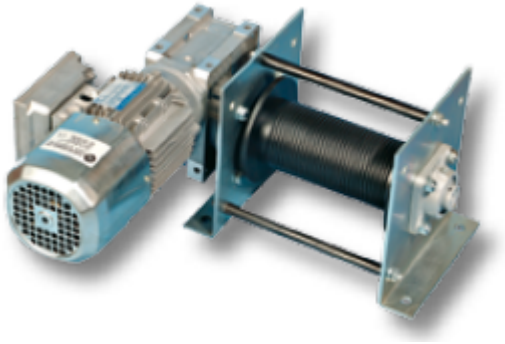

TEKNOWINCH EN SERIES 250- 3000 kg

- Model for lifting
- Equipped with a brake motor and limit switch
- Low-voltage control as standard
- Operating voltage 400 V / 50 Hz
- Models available with different speeds
- Various equipment and control options
- Also for long ropes

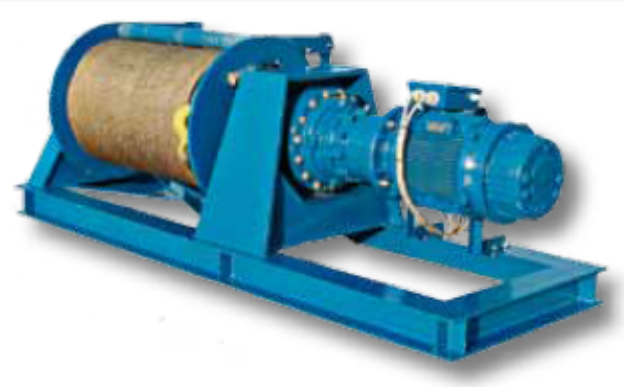

TEKNOWINCH STANDARD SERIES 125 – 1200 kg

- Suitable for lifting and pulling
- With direct or low-voltage control
- Operating voltage 230 V or 400 V / 50 Hz
- For loads up to 1200 kg
- Rope lengths and speeds case by case

TEKNOWINCH PLANETA SERIES 1000- 50,000 kg

- Affordable and versatile
- Models for pulling and lifting
- For installation work, industry, fishing vessels..
- Up to 1000 m of wire rope
- Various equipment and control options

In addition to standard TEKNOWINCH winches, we manufacture customised winches for special needs. Contact us already at the design stage and we will find the right solution together for your application and purpose.
