VACUUM LIFTERS

Vacuum lifters are designed to make it easier to lift awkward loads and parts – especially where the work used to require several people.

PRODUCT DESCRIPTION

The lifters suit a wide range of materials, such as heavy glass, metal sheets, cardboard boxes and various packages. They offer an ergonomic and efficient solution for repetitive lifting in production, warehousing and packing.
Vacuum lifters improve ergonomics, cut costs and make work more comfortable.
Ask us about vacuum lifters. We will map your needs and offer you the best solution.
